

Total Communication Therapy Pte Ltd

Website: www.totalcommunication.com.sg

POSITION: SPEECH LANGUAGE PATHOLOGISTS IN SINGAPORE

About Us

We are a progressive therapy Centre based in Singapore. We currently have a group of international staff, six speech language pathologists, two educational therapists and two occupational therapists. We handle a predominantly pediatric caseload of both Singapore and international school children with language disorders, speech sound disorders, and communication difficulties (e.g. Autism Spectrum population). We are very active in providing educational talks to schools in addition to parent and teacher training.

Job Scope

The successful candidate will be expected to adhere to the standard operating procedures of a medium-sized private practice. The clinical tasks consist of assessing, diagnosing, treating, and report-writing. Our practice keeps close and collaborative working relationships with schools and health services. Some additional marketing duties are shared by the team (i.e. reaching out to schools and advocacy projects). Each staff member is valued for the strengths that they can bring to the team.

We are looking for an SLP who is competent in handling the above areas to join our team. The successful candidate can look forward to:

- an attractive remuneration
- generous annual leave
- yearly training grants
- full time salaried (permanent) contract
- a supportive environment
- fully resourced clinic (extensive therapy materials and new edition assessments)
- weekly meetings for team communication and in-service training

Full training is provided – new graduates are welcome to apply.

The Candidate

Our ideal candidate has the following qualities:

- Strong work ethic and problem-solving attitude
- Ability to work independently and collaboratively with other therapists (familiar with a multi-disciplinary model)
- High level of interpersonal, written and verbal communication skills
- Excellent time management skills and self-monitoring skills
- Demonstrated ability to provide clinical services including client assessment and treatment using conventional assessment tools
- Flexibility in adjusting to a busy and productive private practice environment
- Must be able to commit to a 2-3 year contract

What our SLPs say:

Working at Total Communication

At Total Communication, the team of Speech and Language Pathologists assess and manage a varied and dynamic caseload of children and adolescents with speech, language and communication needs and are motivated to deliver a high standard of clinical practice. The clinicians work closely with Occupational Therapists and Educational Therapists in the clinic as well as Psychologists, Paediatricians and Teachers externally to ensure strong collaboration within a multidisciplinary team. Collaborating with these professionals and the clients' families serves as a highly valuable experience that enables the clinicians to have a holistic view of their individual clients. In addition, the clinicians engage actively in pursuing Continuing Professional Development by attending conferences, workshops and in-service programs and delivering talks to other professionals. This provides rich and exciting learning opportunities and adds to their repertoire of skills as developing clinicians. I will look back on my experience at Total Communication as a fulfilling learning journey which has helped me grow as a clinician.

Jodie Sills, SLP at Total Communication (3 years) before returning to the UK

The Centre

At Total Communication we are proud of our stunning leafy location next to the Lasalle College of the Arts and only a short walk from the world-renowned Newton Hawker Centre. The clinic itself boasts a sensory room and fully equipped O.T. gym as well as light cooking facilities in our dedicated kitchen-pantry area. A full administration team handle payment and scheduling requirements and each therapist is allocated their own private workspace.

The Singapore Experience

Singapore, the world's aspiring 'city in a garden', is an up-and-coming, multicultural place which offers an unforgettable and eclectic experience: Bustling neighbourhoods, innovative architecture, ancient rainforests, museums steeped in history, on-trend street brands, a fusion of foods and a vibrant night-life – there is so much to see and do!

Supports

All allied health professionals who have not worked in Singapore previously, regardless of experience, are required by the Allied Health Professions Council to undergo 2 years of supervision (which we provide on site for your convenience).

How to Apply

Please write in with an expression of interest and the assurance that your application will be kept strictly confidential to Prudencelow@totalcommunication.com.sg You may attach a C.V. and cover letter.
