

YOUNG FOLK THERAPY IS SEEKING A PAEDIATRIC SPEECH THERAPIST

Are you a self-motivated therapist who is interested in managing their own paediatric caseload in a new start-up consisting of enthusiastic and like minded therapists? This may be the perfect job for you.

We are a new multidisciplinary therapy clinic opening in Mong Kok in April, 2019. Our sole purpose to make life easier and more joyful for children and their families. We are seeking Speech and Language Therapists.

We are searching for someone who is hard working, can work autonomously but also thrives on a collaborative team environment. Friendly and energetic is a must.

This position would be a great match for you if:

- You have 3 years experience in paediatrics and want to further your career in this field in the long term
- You are interested in helping establish and grow a new business and gain new skills outside of a traditional therapy job
- You love working in a fun and friendly environment but are not afraid to roll up your sleeves to help the team and get the job done
- You are efficient and self directed and enjoy interacting and communicating with a range of people.
- You want to be an amazing therapist but being part of a team and making a difference is what drives you
- A current working visa for Hong Kong is essential

We are looking for therapists with paediatric experience. An excellent grasp of English both written and spoken is essential and fluency in Cantonese and Mandarin is also high on the list but not crucial. You need to have experience with assessing and treatment of kindergarten and primary school aged children and additional Sensory Processing training will be invaluable to the job. It doesn't matter if you do not have additional training yet, but you will need to prioritise improving these clinical skills. You will have the opportunity to work with parents, teachers, caregivers and other professionals.

We are based in Mong Kok and we value our staff, their time and their skills. We promise a workplace that will challenge and excite as well as support your personal goals. We are a driven team but also know how to have fun.

We are looking for both part-time and full-time staff and you must be available to work some of the school holidays.

Perks of the job include:

- Support and mentoring from our experienced clinical director
- Regular in-house training
- Comprehensive support from the administration team
- Flexible working hours
- Discretionary bonus

If you think you are the person we are searching for, please email your resume and cover letter indicating why you are suited to the job to: leith.stewart@youngfolktherapy.com. All enquiries will be handled in the strictest of confidence.
