

Feuerstein Instrumental Enrichment Program

Developed by renowned educational psychologist **Professor Reuven Feuerstein**, the **Feuerstein Instrumental Enrichment Program (IE)** is a thinking skills enhancement program that offers a variety of teaching packages for different abilities and is suitable for all ages, from children to adults. It can be applied in the classroom, in small groups or in individual training. Using a unique guided approach, it is an intellectual and learning enhancement program for the general students, an enrichment program for the gifted, and a corrective training program for students with learning challenges.

The Feuerstein Approach

Teaching students how to think and learn

The Feuerstein Approach is a unique teaching method that focuses on the learning process and the mediation from the mediator. The mediator needs to analyse the needs of the students, select appropriate materials and teaching methods, with the aim of enabling students to develop thinking skills and trigger their hidden intelligence. For example, if a student has difficulties in mathematics, the mediator will first address the root causes and close the gap between thinking skills and performance so to improve performance in mathematics. Through this approach, students' attitudes to learning can be transformed from negative to positive!

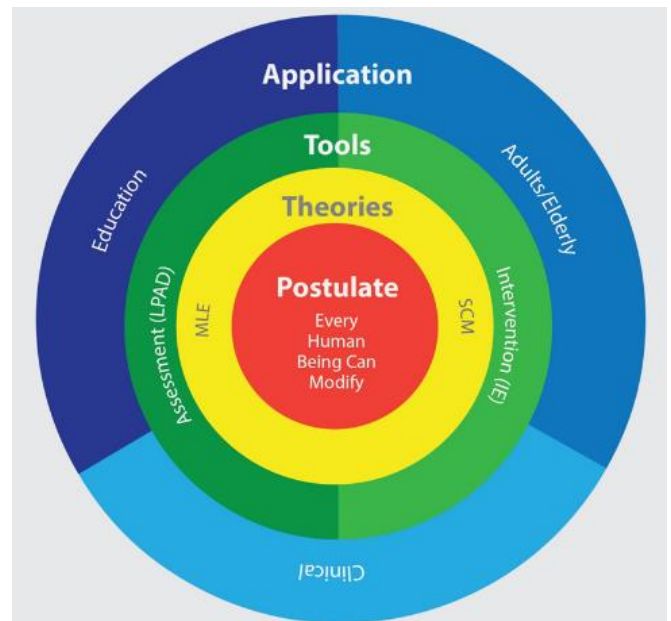

IE Standard Program

The IE (Standard) Program is suitable for students aged above 8 and it consists of 14 instruments. Each focusing on a different cognitive strategy to help refine the development of concepts, introduce, teach and enhance cognitive functions. The training course is suitable for therapists, educational professionals, psychologists, parents and other related professionals.

What will I learn from IE-1?

You will learn about the theory and practical tools:

- Structural Cognitive Modifiability
- Mediated Learning Experience
- Deficient Cognitive Functions
- Criteria and Principles of Mediation
- Goals and Sub-goals of FIE
- Application of 4 instruments:
 - Organization of Dots (Standard)
 - Orientation in Space I (Standard)
 - Comparisons
 - Analytic Perception
- Bridging Exercises
- IE Lesson Planning

IE Trainer

Ms. Livia Wong is an experienced speech therapist with many years of clinical and teaching experience. She is experienced in working with people with learning disabilities, attention deficits, autism spectrum disorders and hearing impairment. She is an accredited FIE Standard/Basic/Tactile Trainer and has taught courses in Hong Kong, Macau, Australia and New Zealand.

Is there any research on IE?

Yes. IE has been one of the most widely researched targets among cognitive intervention programs. To date, research has been documented in hundreds of books, articles, research reports and doctoral dissertations. If you are interested, please visit:

<https://www.icelp.info/home-3/education/>

Is this a Certificate Program?

Yes. Participants who attend all training activities and complete the course requirements will be awarded a certificate by Feuerstein Institute in Israel. The certificate is valid for four years (from the date of issue) and can be made permanent if the CPD conditions are met.

Testimonial

- The course was very inspiring! The course is very good! There is a lot of interactive learning that balances theory and practice at the same time. I look forward to attending more IE courses!
- During the course, I started to relate what I learnt to my personal life as a mother and as a teacher
- Ms. Livia is a very professional speaker with a great sense of humour, a good understanding of the course content and provided an in-depth explanation that made it clear to me. Really good!

IE-1 Course Details

- Organiser** : Amaze Learning Solutions
- IE Trainer** : Ms. Livia Wong
- Course** : Feuerstein Instrumental Enrichment (Standard) Course
IE-1 (of 3)
- Course Length** : 5 days
- Time** : 8 hours daily – total 40 hours
- Suitable for** : Therapists, Educational Professionals, Psychologists,
Parents
- Media of Instruction** : English and Cantonese
- Materials provided** :
 - Teaching Diagram
 - 4 Instruments:
 - Organization of Dots (Standard)
 - Orientation in Space I (Standard)
 - Comparisons
 - Analytic Perception
 - Workshop Notes
- Recommended Reading** : Feuerstein, R. et al. (2006). *Creating and Enhancing Cognitive Modifiability*. Israel: ICELP Publications.
- Certification** : Participants who attend all training activities and fulfill the course requirements will be awarded a Certificate from The Feuerstein Institute in Israel. The certificate is valid for 4 years (from the issue date). If participants satisfy the requirements of Continuous Professional Developments (CPD), the certificate will be renewed.
