

Seedling Heart Child Development Centre, established in 2017, is a multi-disciplinary clinic with Clinical Psychologists, Physiotherapists, Speech Therapists and Occupational Therapists. The team provides professional and individualized assessment and treatment services on speech and language, motor skills, social and emotion development. Our mission is to facilitate children’s growth and development and to empower parents in the journey. We believe, when we recognize and address the diverse needs of your children, they can achieve full potential.

We are now hiring the following positions:

Speech Therapist (Part time/ Freelance)

Job descriptions:

- Provide relevant assessment & treatment for preschool or school-age children in individual and group therapy basis
- Provide on-site ST services for school projects (special schools, primary and secondary schools)
- Complete professional documents e.g. assessment or progress reports
- Deliver professional talks or training for caregivers and teachers

Qualifications:

- A bachelor or master degree in Speech & Hearing Sciences from a local university, or equivalent
- Good command in written and spoken English and Chinese
- Those with relevant work experience in supporting special school, preschool or school-age children are preferred

All information received will be kept in strict confidence and used only for employment-related purposes.

To apply, please send your resume with expected salary and date of availability to
